

175MM INJECTION MOULDED AND FABRICATED STORMWATER FITTINGS

FABRICATED FITTINGS

P&F Global source 175mm fittings from a variety of reputable manufacturers including Coal Creek Plastics and TD Plastics. These fittings are made from pipe certified to AS/NZS1254 standards but are supplied without labelling on the actual fittings.

INJECTION MOULDED

There are currently no 175mm stormwater fittings injection moulded in either Australia or New Zealand. All New Zealand suppliers import these fittings from overseas. P&F Global import product that complies with the AS/NZS1254 but are supplied without labelling on the actual fitting.

In accordance with the AS/NZS 1254 standard P&F Global warranty the products to have a service life of a minimum of 50 years when installed to NSZ2032 – Installation of PVC Pipe Systems.
